
Multi-Branch Explainability and Saliency Attribution across CNN, Vision Transformer, and Fused Latent Streams
(a) Input Ulcer (x)
True: Infection, Wagner 2
(b) CNN Stream Grad-CAM
(Epidermal Margins / Exudate)
(c) Swin-ViT Stream Grad-CAM
(Global Foot Morphology)
(d) Fused Multi-Task Grad-CAM
(Joint Disentangled Saliency)
(e) Integrated Gradients
(Fine Biophysical Features)
